- 2 x potholders

General information

Read the operating instructions.

This instruction manual belongs to the potholder from WOHNHELD.

It contains important information on commissioning and handling. Non-observance of these operating instructions can cause damage to the product.

Explanation of symbols

The following symbols and signal words are used in these operating instructions.

NOTE - This signal word warns of possible damage to property.

CAUTION - This signal word indicates a possibly imminent danger. If it is not avoided, slight or minor injuries may result.

WARNING - This signal word indicates a possibly imminent danger. Disregarding the warning can cause injuries or serious damage to property.

This symbol gives you useful additional information on operation or handling.

Declaration of Conformity: The EU Declaration of Conformity can be requested at www.wohnheld.services. Products marked with this symbol comply with all applicable Community rules of the European Economic Area.

The present potholders are identical to the PPE that was submitted to the type examination for personal protective equipment.

This symbol indicates a possibly imminent danger. If it is not avoided, slight or minor injuries may result.

Regulation (EC) No. 1907/2006 (REACH Regulation) is an EU chemicals regulation that came into force on June 1, 2007. REACH stands for Registration, Evaluation, Authorization and Restriction of Chemicals. As an EU regulation, REACH is equally and directly applicable in all member states.

Safety

Application area:

User information for potholders of category II according to EU Regulation 2016/425.

The product complies with the following standards:

- EN ISO 21420:2020 Protective gloves – General requirements and test methods
- EN 407:2020 Protective gloves and other hand protective equipment against thermal risks (heat and/or fire)

Labeling:

EN 407:2020

X

Burning behavior*

2

Contact heat

X

Convective heat*

X

Radiant heat*

X

Small molten metal
splashes*

X

Large molten metal
splashes*

Test results according to EN 407:2020 Protective gloves and other hand protective equipment against thermal risks (heat and/or fire)

*The marking "X" instead of a number means that the potholder has not been tested for the corresponding risk. For the performance levels, 4 means the best and 1 the worst protection.

WARNING - Intended use:

The potholders protect only the hands against brief contact with heat. The other parts of the body are excluded from protection. The potholders must not come into contact with open flames.

The potholder is suitable for protection against contact heat up to a maximum of 250 °C and for a maximum of 15 seconds.

The risk from heat and fire is covered by compliance with EN 407:2020 Protective gloves against thermal risks (heat and/or fire), taking into account the levels of performance achieved.

The potholder is not suitable for direct contact with food.

Use the potholder only as described in this manual. Any other use is considered improper and can lead to property damage. The potholder is not a child's toy and is intended for household use only.

The manufacturer or distributor accepts no liability for damage caused by improper or incorrect use.

WARNING - Inspection:

A visual inspection for damage is essential! Damaged potholders can no longer be used.

WARNING - Handling:

Note that the potholders cannot provide 100% protection. So always be careful when handling hot objects.

WARNING - Storage:

Store in a cool and well-ventilated place at normal room temperature. Protect from direct sunlight and other weather conditions.

Keep the original packaging for transport.

WARNING - Packaging:

The plastic packaging bag is not a toy. Keep this bag away from babies and small children.

Do not use in cribs, children's beds or strollers or near children. The thin film could stick to the mouth and nose and hinder breathing.

Cleaning/care

Care labeling:

Please refer to the marking label for the care marking.

Cleaning:

Washable up to 30 °C on gentle cycle.

Maximum 5 washes.

Do not use fabric softener.

Do not tumble dry.

Do not iron.

Technical data

Product name:	Potholder
Models:	4270003314817, 4270003314831, 4270003314824, 4270003314848, 4270003314862, 4270003314855
Weight:	round model: 68 grams, heart-shaped model: 63 grams
Size:	round model: 200 x 200 x 10 mm, heart-shaped model: 200 x 190 x 10 mm
Outer material:	Fabric, 100% cotton with silicone coating
Lining:	Fabric, 100% polyester
Country of manufacture:	China

Subject to technical and optical changes.

The potholder also complies with the Textile Labeling Regulation (EU) No. 1007/2011.

Durability: The service life depends on the storage conditions, the degree of wear and the frequency of use in the respective areas of application.

Disposal: Please observe the local regulations and laws.

EU type-examination - notified body:

TÜV Rheinland LGA Products GmbH- Tillystraße 2, 90431 Nuremberg, Germany

Notified body number: 0197

Manufacturer: Michael Wohlgenannt

Lange Äcker 5, 6850 Dornbirn, Austria

More information:

This potholder consists of three layers, so the performance level refers to the entire potholder, including all layers.

Do not wear potholders when working with moving machine parts.

Do not touch sharp or chemical objects. Do not use these potholders to protect against sharp edges, blades or open flames.

This user information serves as an aid in the selection of suitable protective equipment.

The laboratory tests are intended as a guide, but cannot simulate actual workplace conditions.

Therefore, it is the user's responsibility, not the manufacturer's, to determine the suitability of specific potholders for their intended use.
